3. 4. PROJECT ADDRESS: 417 Eardley Avenue

APPLICATION NO.: Lot Line Adjustment Application No. 09-233

APPLICANT(S): Michael Mairoana, on behalf of Giuseppa Pennisi

CEQA STATUS: Categorically Exempt, Class 5

PROJECT DESCRIPTION: The Lot Line Adjustment Application No. 09-233 involves the reconfiguration of three existing lots to create three lots that conform to the City Zoning Code.

Senior Planner Vaughn introduced the project, noting that the project had been referred back to the applicant at the July 21, 2009 SPRC meeting.

Michael Mairoana, applicant, was present to answer questions.

On a motion by Kuehl, seconded by Vaughn, the Site Plan Review Committee voted 4-0 to approve the lot line adjustment, subject to the following findings:

1. Per Municipal Code Section 24.04.030, the lot line adjustment is between two or more adjacent parcels, where the land taken from one parcel is added to an adjacent parcel, where a greater number of parcels than originally existed is not thereby created, and where merger is not required for such parcels under this section.
2. The lot line adjustment conforms to the City's General Plan, zoning ordinance and building ordinance.
3. The lot line adjustment provides for the following:
 - a. Necessary street improvements to control and provide for traffic movement arising from the development;
 - b. Safe pedestrian movement on or adjoining the property;
 - c. Safe and sanitary control of surface and subsurface drainage on or adjoining the property;
 - d. Attractive and sanitary provisions for refuse storage and disposal;
 - e. The provision of appropriate and adequate automobile parking spaces;
 - f. Fulfills the purposes of PGMC 23.74.030.

5. ADJOURNMENT

The meeting was adjourned at 10:20 a.m.
